

## INTRODUCING...

### SpaWhite Teeth Whitening System at The Spa at Harbor Bay

**White Science.** The name says it all: Real science applied to getting whiter teeth. White Science introduces a series of innovations that deliver real teeth whitening and stain removal in record time — without the dentist or the dentist price — in a simple yet comprehensive two-part approach to getting and keeping the smile of a lifetime.

**The Concept.** Take years of experience in professional dental whitening, add the latest research in cosmetic dentistry, and package it in a way that you can enjoy the benefits of a whiter smile from the same people that makes the rest of you beautiful: the Estheticians at The Spa at Harbor Bay!

#### SpaWhite Silver (45 min appt)

Take years of experience in professional dental whitening, add the latest research in cosmetic dentistry, and package it in a way that you can enjoy the benefits of a whiter smile from the same place that makes the rest of you beautiful; your favorite spa. SpaWhite Silver is clinically proven to whiten your teeth 4 to 9 shades. The complete procedure takes just over 30 minutes. The procedure begins with a preparation period followed by two consecutive 15 minutes of whitening. (brush teeth 3 hours or more before SpaWhite Whitening session). Treatment comes with a Whitelce Post Whitener.

Members: \$210

Guests: \$229

#### Whitelce (*Post-whitening*) --- incl. in SpaWhite Silver Treatment (*retail product*)

By following some simple post whitening care instructions, your teeth will always be lighter than they were before. To keep your teeth looking their best, we recommend a Whitelce kit. It packs real whitening power in the most convenient form ever-- there's even a built-in mirror so you can use your Whitelce anywhere. It fits in your pocket or purse, and is as easy to use as lip balm. Simply remove the cap, give the base a twist and rub a thin glaze of the Whitelce on your teeth. It combines with the heat and moisture in your mouth to release its potent whitening agent. Then, after it's done its job - usually about ten minutes - it disappears, leaving you with a bright smile and a minty-fresh breath. Also in the Whitelce kit are 20 WhiteScience deep-cleaning teeth wipes for "priming" teeth prior to Whitelce application. These are professional formula products designed specifically to keep your teeth their brightest. Available in the Pro Shop.
